

# How to install [REDACTED] Environment

## 1. Terminal Server

(Documentation: Thin Clients and Windows Terminal Server Installation Guide - Revision 1.4)

- Install Terminal Server Operating System Install Citrix Metaframe
- Installation of Insight Management Agent => requires that DSO Compaq Insight Manager is installed and updated with the latest NTSSD.
- Install required Server Applications:
  - ☒ Internet Explorer
  - ☒ MDAC 2.0
  - ☒ Oracle Runtime
  - ☒ VB Runtime
  - ☒ IOS Shared
  - ☒ NT Option Pack
  - ☒ Active Directory Service
  - ☒ VB Script
  - ☒ Application Launcher and Printer utility
  - ☒ Service Pack 4
- Configuration of Terminal Server for Thin Client Users => only necessary if there are NC's used in the location.
- Performance Tuning for Terminal Server
- Configuration of Citrix Metaframe
  - ☒ Register Citrix Licence (Citrix Licences are ordered from [REDACTED])
  - ☒ Configure Citrix Farms
  - ☒ Publish Application Launcher
  - ☒ Configure User Sessions

→ Installation of Client Applications for Publishing on NC and Citrix ICA client

☒ Base Applications

- ⇒ MFW
- ⇒ Reflection
- ⇒ Office 97
- ⇒ Acrobat Reader
- ⇒ Explorer

→ Install Backup: Use Backup Exec Enterprise Edition

→ Install ACID Service

This will install ACID Watchdog service and ACID Service.

1. copy [redacted] to r:\program files\ACID and run acid.exe

→ Install AcidX Client Part (Inprocess Installation only)

(Documentation: AcidX Client Installations - Webpage: [redacted])

1. copy files from [redacted] to r:\program files\[redacted]
2. change user /install
3. regsvr32 [redacted]
