

Welcome to

Agenda – Kickoff [REDACTED]

- Introduction to [REDACTED] MAC
- Rollout Procedure/Project plan
- Resource definition & confirmation
- Time plan
- Define tasks for next steps

Benefits & Goals

- Standardisation (Software, Hardware)
- Better & faster end user support based on centralized maintenance
- Licence control
- Improved version control
- Controlled installation of programs
- [REDACTED] standards

Effects and Impacts

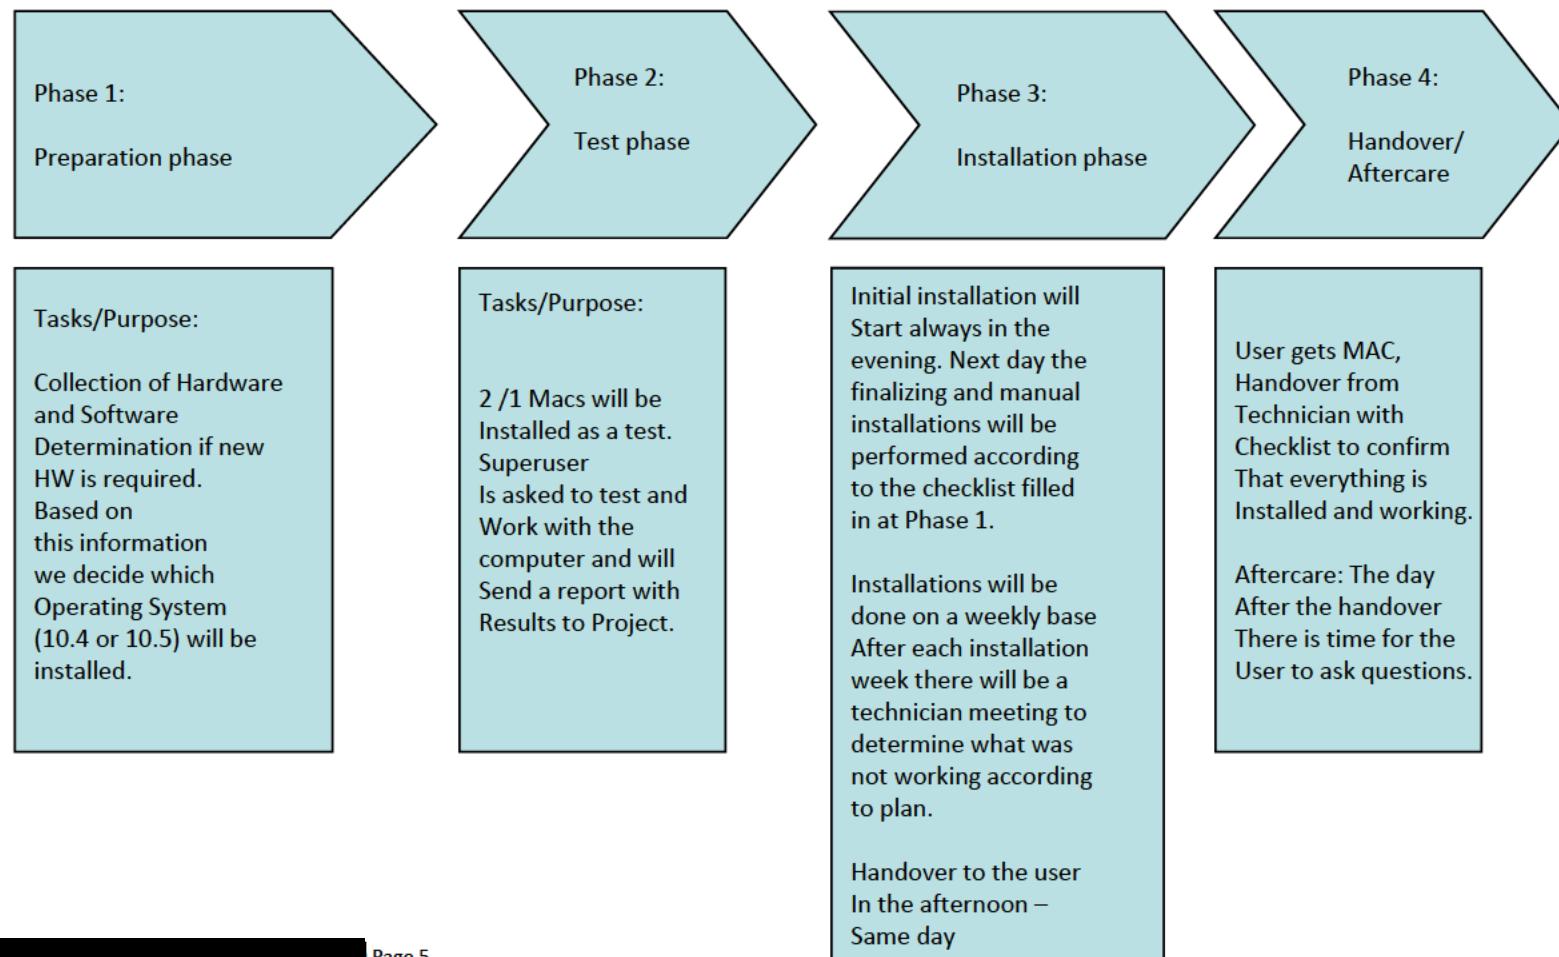

- Two operating systems are allowed for MAC (10.4 and 10.5)
- Software & Hardware will be ordered and installed in a controlled way.
- Changed working routines, when it comes to install software on the Macs.
- Improved support for Macs.

Rollout Procedure/Projectplan

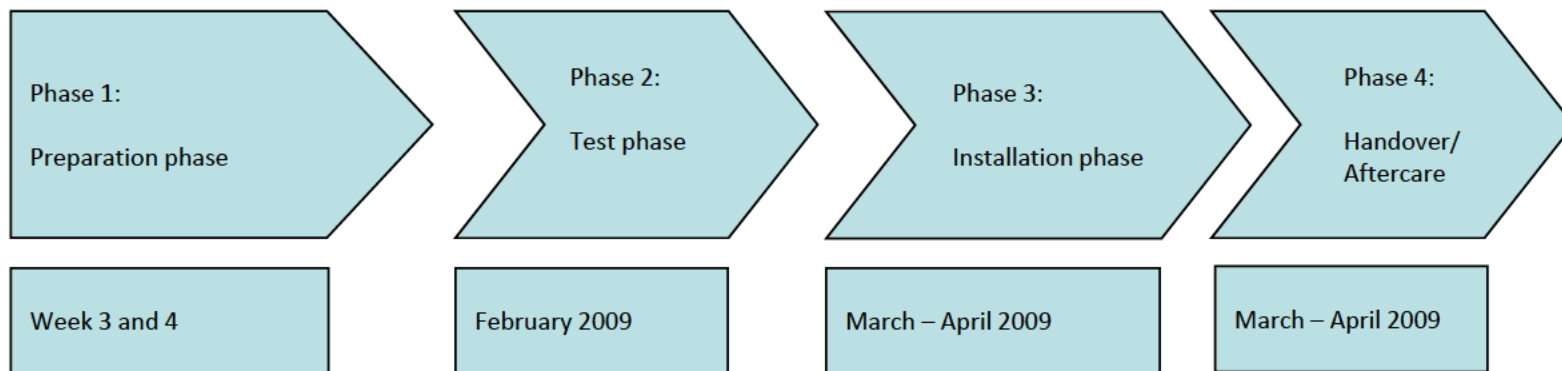

- Work Breakdown Structure Overview

Timeplan I

- Timeplan [REDACTED]

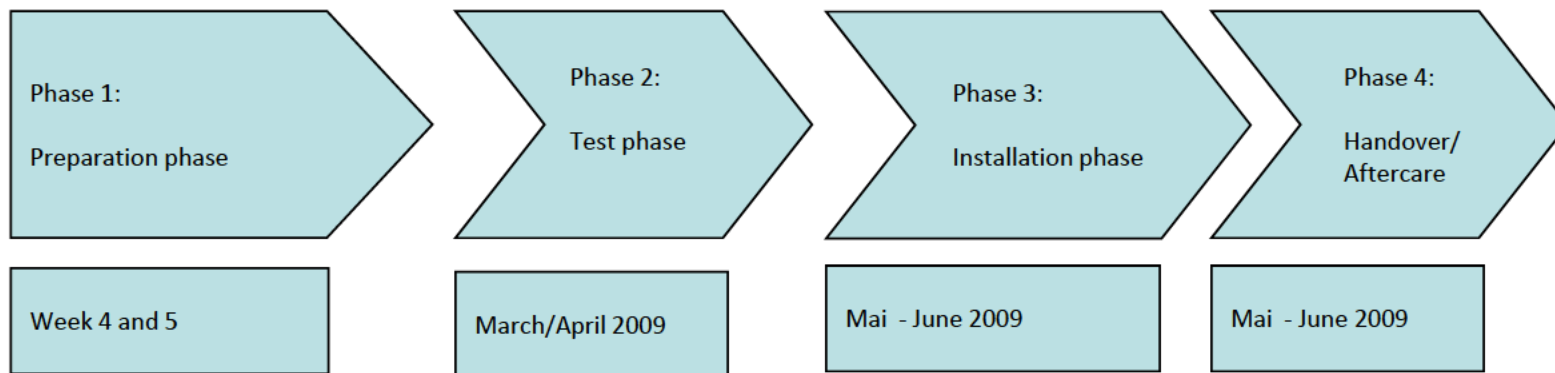

Detailed Timeplanning will follow by end of Week 4

Are there any dates where installations are impossible, because of Critical activities?

Timeplan II

- Timeplan

Detailed Timeplanning will follow by end of Week 4

Are there any dates where installations are impossible, because of Critical activities?

Define Tasks for next steps

- Tasks for Phase 1:
 - Fill in the Checklist (Responsible person)
 - Identify if HW is sufficient for Rollout – based on HW recommendations from [REDACTED] (responsible Person)
 - Order HW (responsible Person)
 - Order all [REDACTED] MAC installations from [REDACTED] (responsible Person)

Any other tasks?

Next Project meeting [REDACTED]
