Fileshare Migration ▮▮▮▮▮▮▮▮ – Frequently Asked Questions (FAQs)

1. What data/server is affected?

All project and common shares which are currently located on the following servers

██████████████

██████████████

██████████████

██████████████

██████████████

are affected and will be moved to one of the below mentioned servers:

██████████████

██████████████

2. What data will be moved?

Below you will find a list of data which has been moved to the new servers:

Project Share Common Share	ShareName	Owner	Servername
Common	███████████████████	██████	████████████
Common	█████████	██████████	████████████
Common	████████████████████	███████	███████████
Common	█████████	█████████	████████████
Common	████	███████████	████████████
Common	█████	██████████	████████████
Common	████████████████████	██████████	███████████
Common	██████████████████	███████████	███████████
Common	██████	██████████	█████████████
Common	██████████	██████████	████████████
Common	█████████████████	██████████	████████████
Common	███████████	███████████	███████████
Common	████████████████████	███████	████████████
Common	████████████	█████████	████████████
Common	███████████████	█████████	█████████████
Common	██████████████	██████████	████████████
Common	██████	█████████	████████████
Common	████████	██████████	████████████
Common	████	██████████	████████████
Common	█████████	█████████	████████████
Common	█████	█████████	█████████████
Common	████████	███████	████████████
Common	███████████	█████████████	████████████

Common	██████	████████	███████████
Common	█████████████	███████	███████████
Common	█████████████	███████	███████████
Common	███████████████	██████████	███████████
Common	███████████████	██████████	███████████
Common	█████████	██████████	███████████
Common	███████	██████████	███████████
Common	███████████	██████████	███████████
Common	█████████	██████████████	███████████
Common	██	██████████	███████████
Common	███████████████████	█████████	███████████
Project	█████████████	███████	███████████
Project	███████████	██████████	███████████
Project	██	██████████████	███████████
Project	█████████	██████████████	███████████
Project	██████████████████████	██████████	███████████
Project	███████████	██████████	███████████
Project	██	██████████	███████████
Project	█████████████	██████	███████████
Project	█████████	████████	███████████
Project	██████████████████	██████	███████████

3. Where do I find my common or project data/shares?

Depending on what method you usually use, you will find your shares with the following guidance:

**Method 1: In your startmenu:**

1. **Reboot your computer**
2. **Click on the windows button**
3. **Expand**
   IKEA Common or
   IKEA Projects
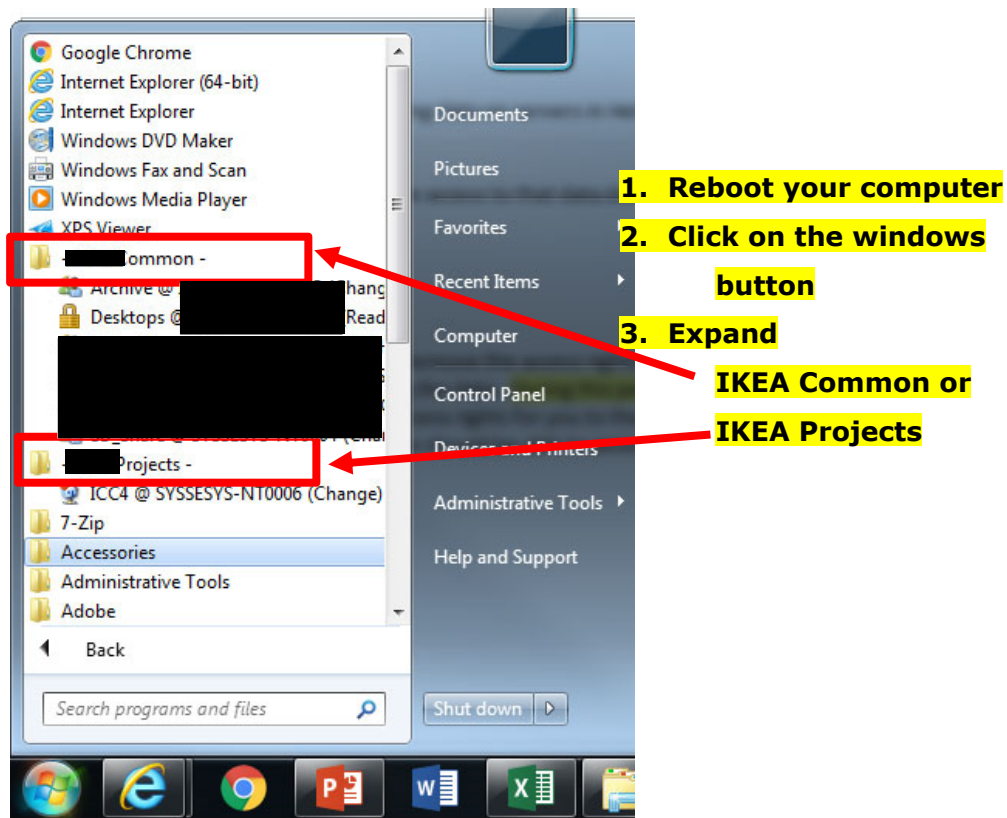

Method 2: In your Windows explorer
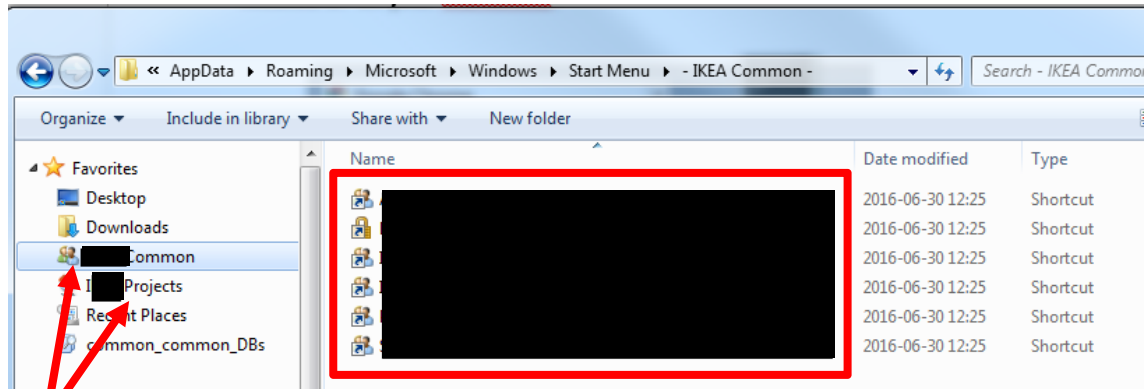

Common ... find you common shares

Projects ... find your project shares

Method 3: on your desktop

If you have created shortcuts on your own and placed them on your desktop, you will find them here:

Important!

If you created the shortcuts yourself, you will need to change them to the new sharename.

Method 4: manually mapped Drive

In some – very rare – cases, you might have created a manual connection to one of the shares.

If you have done that, you need to disconnect the share and re-map it with the new name.
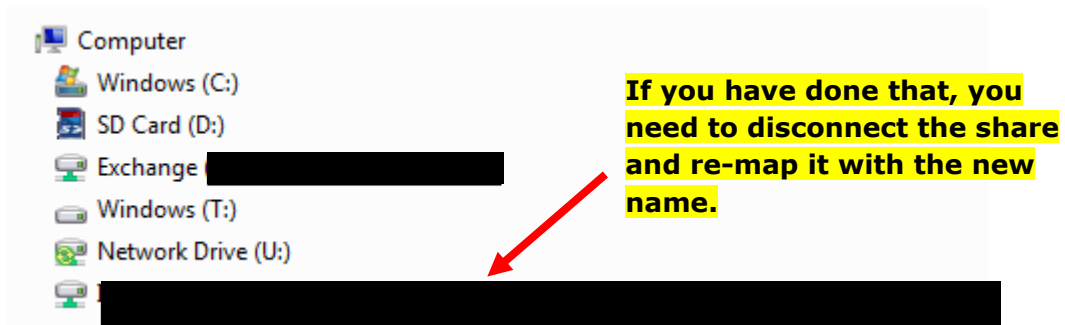

Please keep in mind that manual connected shares are not usual and only made on special exceptions and for certain standard drives.
